Teach your child to tell the time with the help of Fernando the Fish, Omar the Owl and Elihu the Elephant

Words: Sophie Baylis

No designer has done more for the humble wall clock than George Nelson (1908–1986), who spent his life creating refreshing alternatives to traditional timepieces. Among them are Fernando the Fish, Omar the Owl and Elihu the Elephant, three colourful characters that are part of Nelson's Zoo Timers collection of playful clocks, which were designed for Vitra in 1965. Hunt them down at Utility Design for £88 each.
